

Welcome to Ideal Customer Profiles & Personas

As a Zapier Solution Partner, **you can leverage our deep industry research to understand and build your own ICP and target market.**

In this course, we'll walk through:

- How to use Zapier's ICP guides
- The 5 key industry verticals Zapier focuses on
- Story-driven vertical positioning
- Buyer personas & messaging
- Typical tech stacks and integrations
- How you can apply this to your own practice

 **Follow Along** Download and review this guide as we go through the slides: [🔗 Zapier Enterprise ICP + Key Industry Vertical Guide \(PDF\)](#) And [Ideal Customer Profile - 1 pager](#)

 **Tip:** Open the PDF side-by-side or keep it handy to dive deeper into each vertical as we go.

by Dorian Kominek

What's in an ICP?

Each of Zapier's 5 vertical ICPs includes these key components to help you understand and target specific industries.

 **Tip for Partners:** Study Zapier's ICPs — then build your own based on your niche!

Zapier's Strategic Industry Focus

Technology & SaaS

Connecting sprawling tech stacks

Professional Services

Streamlining client service & compliance

Media

Managing complex content production pipelines

Retail

Coordinating hybrid customer journeys

Marketplaces

Handling multi-party workflows at scale

Zapier's upmarket strategy focuses on these five core verticals.

💡 These verticals also apply to SMBs—same challenges, just smaller scale.

Persona Matrix

Each vertical contains Buyer and Builder personas. Think of this like a matrix:

Buyers can be technical or business users, and **Builders** can be technical or business users.

Buyers

Budget owners focused on outcomes

(Can be Business or Technical users)

Builders

The people actually setting up Zaps

(Can be Business or Technical users)

Business vs. Technical

- **Buyers** can be business or technical users
- **Builders** be business or technical users

🧠 **Tip for Partners:** Adjust your pitch depending on who you're speaking to.

For example: Business personas care about ROI, while technical ones care about governance and security.

Tools You'll Often See

You'll also note in the ICP guide, that we've listed most common tech stacks for each vertical. Verticals have common integration patterns (like finger prints) as shown in the examples below.

Technology & SaaS	Salesforce, HubSpot, Slack, Datadog, Okta
Media	Airtable, Frame.io, Discord, Notion, Power BI
Professional Services	Redtail, Wealthbox, Zoom, Calendly, ServiceNow
Retail	Shopify, Pardot, Zendesk, Google Sheets
Marketplaces	Twilio, Airtable, Razorpay, Google Sheets

 **Partner Tip:** Use this stack information to hone your tech skills if you're targeting a specific industry verticle

Build Your Own Vertical Playbook

Identify your niche

e.g. legal firms, real estate teams, SaaS startups

Define common pain points & roles

Understand the specific challenges and key stakeholders

Map out typical tools

Document the software used by your audience

Create your Zapier story

Develop your own "before and after" transformation narrative

Use Zapier's ICP breakdown as a model to build your own vertical strategy.

📌 Start where you have traction. Build playbooks that scale with your business.

High-Impact Automations to Know

Lead Intake & Enrichment

Send leads from forms/ads to CRMs instantly, enriched with tools like Zoominfo or Clay.

Sales → Support Handoff

Move context-rich data from sales to onboarding to support tools.

Client or Employee Onboarding

Automate entire onboarding flows: provisioning, emails, tasks, follow-ups.

Ticketing & Incident Management

Use tools like Zendesk, JIRA, and Slack to streamline ticket routing and resolution.

Recurring Campaign Coordination

Automate and sync ad platforms, CRMs, and project tools for always-on campaigns.

These are repeatable plays you'll find across many industries.
